SURVEY – AMIF PARTICIPANTS – THIRD COUNTRY NATIONALS

The AMIF Regulation sets out two result indicators for activities such as French foreign language lessons, citizenship courses, as well as individual support.

This survey must be carried out at the end of each activity. The questionnaire should be kept in the participant's file until the end of the AMIF programme.

The answers must be encoded in the 21-27 application; they will be anonymised and aggregated before being sent to the European authorities.
